About me

I am a Ph.D. student at the Indian Institute of Technology Patna, Bihar, India, under the guidance of Prof. Asif Ekbal. I am honored to be a recipient of the prestigious Innovation in Science Pursuit for Inspired Research (INSPIRE) Fellowship, awarded by the Department of Science and Technology, Ministry of Science and Technology, Government of India for pursuing my Ph.D.

Research Focus

My research lies in the domain of Natural Language Processing (NLP), with a current focus on incorporating socio-linguistic cues such as politeness, empathy, and persuasiveness into conversational AI systems. This work is applied across various critical tasks, including mental health counseling, customer support, and negotiation, to improve human-computer interactions in socially sensitive contexts.
